

FREE PRIVATE CHRISTIAN SCHOOL!!!

Greetings, Parents!!! PALS-4-Success Community Outreach, a nonprofit specializing in school choice, was created in 2015 by CEO Doris Beasley-Phillips, to serve the needs of families located in public school districts with failing state report card grades. This letter offers the opportunity for your child/children to attend a private Christian school. Through the financial appropriations of the "Learns Act," Governor Sarah Sanders enacted the Education Freedom Accounts. These are parent vouchers, or scholarships, that provide \$6,856 per child for FREE private school tuition! Our organization is a member of the PALS Network of Schools. As a charter member, a limited number of FREE scholarships are available. This school affiliation is a partnership through the PALS-4-Success Community Outreach (P4SCO) network and is an affiliate of the Accelerated Christian Education academic program (aceministries.org).

P4SCO chose the Accelerated Christian Education program because of the nontraditional approach to educating children. The comprehensive school model focuses on your child's unique learning needs. It allows every child the opportunity to accel at independent rates of learning. After enrollment approval, scholars are given a nationally recognized standardized test (e-SAT10) to assess his/her present level of learning in each core subject area. The test results are available immediately. These results serve as the baseline of determination in developing each scholar's prescriptive education program. No two children are prescribed the same program. This hybrid "out-of-the-box" program accelerates scholars beyond regular grade level placement of one year of acceleration. For parents who are enrolled by the August 15 deadline, a series of virtual meetings will be held via Zoom.

The Enrollment Process is relatively simple. ***ALL STEPS NEED TO BE COMPLETED BY THE AUGUST 15 DEADLINE! INFORMATIONAL ZOOM MEETINGS ARE SCHEDULED AUGUST 11-14 P.M.*** for your assistance! Please have a digital device with internet ready and we'll walk you through the steps. To enroll for the FREE tuition through the Education Freedom Account's portal, the steps include:
